Conceptual floor plan for Blessed Kateri Roman Catholic Church.

Conceptual elevation design drawing.

Conceptual site plan for Blessed Kateri Roman Catholic Church.

Project Scope:

LAN provided the Archdiocese Building Commission (ABC) of New York with conceptual design drawings to illustrate the potential use of church owned land in Lagrangeville, New York. LAN provided comprehensive detailed design drawings for a proposed master plan study illustrating the construction of a new church, rectory, and educational building with gymnasium on an 80 acre site. LAN consulted with Walters Storyk Design Group, James Hundt and Esposito Associates to provide acoustical, liturgical and landscape design services, in pursuit of the project. LAN provided presentation boards of the proposed site plan, floor plans and building elevations presented to the Archdiocese client for consideration. Although LAN was short-listed during the interview process, the Archdiocese Building Commission ultimately selected an alternate firm.

Services Performed:

- Deed Research/Wetlands Delineation
- Master Planning
- Architectural Design
- Massing Study
- Material Specification

Program Highlights:

- 1,000 Seat Sanctuary Space
- Acoustical, Liturgical and Landscape Design Consultants
- ADA Accessibility
